TEAM PLAY-OFF GAMES DOMINATE SPORTS NEWS

Baseball, soccer and soft ball teams were much in the recent news. As reported in the July issue, Margaret, Bud and family took off for Hawaii recently, for a combination vacation and kids soccer tournament. We have the following account from sports reporter Margaret.

LIGHTNING WINS HAWAII CUP IN SUDDEN DEATH OVERTIME

by Margaret Riel

Kim Scott's Boys Under 14 soccer team scored a thrilling come-from-behind 5-4 victory over Team Hawaii to win the Hawaii Cup soccer tournament in Maui, Hawaii on July 29, 1995. Playing on a wind swept field, the Lightning found themselves down 4-0 with only 12 minutes to play in the championship game. Two goals by Dan Miller and one each by Ian Gere and Brett Mills drew the Leucadia team even with the all star team from the Big Island as regulation time ran out. With momentum now on their side, the Lightning staved off Team Hawaii attacks in the first sudden-death period. With the fierce wind at their backs in the second over-time period the Lightning struck. Dustin D'Artenny netted a penalty kick from 35 yards out to bring the Hawaii Cup trophy home to North County.

Undefeated in the tournament, the Lightning beat the Back Bay Bombers from Newport Beach 6-1, the Makawao Strikers from Maui 2-1, Diamond Head from Ohau 4-0 in pool play and the Maui Thunderballs 2-0 in the semi-finals. Showing the lightning versatility, 7 players scored. Dan Miller had 6 goals, Brett Miles 4, Corey Scott 3, Ian Gere and Justin D'Artenay had 2 each. David Ginge and Rickey Usher added a goal each.

The mid-field play of Brian Cox, Ryan Mislolik, Mike Suor and Michael Riel-Mehan contributed to the Lightnings 3+ goals-per-game average, while the defense of Mike Cameron, Scott Baldwin, Rickey Usher and Alex Rock helped hold opponents to a goal per game. Coach Scott was especially pleased with goalkeeper Andrew Gordon's daring defense of his goal during the 4 day tournament.

We congratulate Michael for his fine play and the way his team came from behind to win the final game.

Margaret also reported that they enjoyed their Hawaii vacation, but were happy to get home after all of their recent travels.

Brett Sorem won a place on the Tecolote Bronco all star baseball team, the Bulldogs, and they ended up winning the district and sectional championships. This qualified them for the regional tournament, held in Perris, California, July 22-26. Although they won 4 out of 6 games they finished in third

place, losing twice to the final winner, Whittier. We have the following account by sports reporter Francie.

TECOLOTE BRNCOS 1ST, 3RD IN DISTRICT

by Francie Castro

The Tecolote Bulldog all-stars, after capturing the district championship in four straight games at North City in Clairmont, went on to defeat the 2nd place North City team in the sectional finals. They had to beat them twice in a double header, 3-2 in regulation 7 innings and then in a 12 inning 3 hour 40 minute final the Bulldogs pulled it out with a final score of 4-2. In the 10th inning their arch rival 2nd seed North City team had the bases loaded with no outs and the Bulldogs managed to work out of it. This victory gave them an invitation to the regional championship in Perris, Ca. They lost their first game 2-0, but went on to win the next 5 games in four days, playing in 90-100 degree weather. Unfortunately (or fortunately, depending on whether you were talking to the player or the driver) they were defeated by Whittier to miss the finals by one game. GOOD JOB BULLDOGS! There were many tremendous plays by all. Brett was used at various times at 2nd, 3rd, left and right field. He made one outstanding over the shoulder catch of a line drive bullet in a regional game clutch situation. NICE GOING, BRETT!

We certainly want to add our own congratulations to both Michael and Brett for their parts in the successes enjoyed by their teams. As we have mentioned before, one of the important lessons one learns in any team sport is how to play your role in a situation where you have to work within a group in order to achieve a goal. This experience will become important later on in your life, no matter what the circumstances are.

Dear Francie,

I wanted to personally thank you for the outstanding work you exhibited on the ISO Video Series. The two videos, I believe, are the finest I have ever seen in our industry. They truly capture the excitement and essence of ISO and will be a valuable resource for salons.

ISO's growing prominence in the market is the result of innovative thinking and creative, talented people like you. Thanks again for the excellent contribution on our videos, and more importantly, to your continuing dedication to ISO and being a part of our family.

Best Regards,

Bob

TRAVEL NEWS

As mentioned above, the Mehan family enjoyed other things besides soccer during their recent vacation in Hawaii. Page three contains a photograph of a daring vacationer soaring over the ocean on a towed parachute. We are not sure who this daredevil is, but they sure are up in the clouds. It must be fun.

The copy of the postcard shown on the right came from the earlier Oxford trip, and tells of some adventures in England.

The Gillingham family took off recently for Colorado, to attend the wedding of Bob's sister. We understand that they then met with the Hartman bunch for some additional vacationing. We look forward to some stories and pictures for the next issue.

Francie returned recently from a very successful trip to Chicago, to appear in two video films made to promote the ISO beauty product line. She reported that it was a great experience, involving a professional film crew, settings, professional models, etc. Although she had expressed some doubts as to how her work was received, the adjoining letter from an ISO executive makes it clear that she is doing an outstanding job. Who knows what will be next, London, Paris, Rome, Hollywood ?? We do hear a rumor that the next stop will be Hawaii, but we have no confirmation or details.

Dear Mom + Dad,
 We are having a great time at Oxford. The weather has been great - at least for England. So far no rain during the day and there has been many warm days. The kids are enjoying both the city and the countryside. We rented bikes for the week and will be roaming about Oxford. We are home on the 24th, then off to Hawaii.

MORE GRADUATION NEWS

In the July issue we promised to print the speeches made by Jessica and Dustin at the Green School graduation exercises.

FOURTH GRADE MEMORIES

by Dustin Benesch

When I think of all the good memories of fourth grade I can only imagine how great tomorrow will be for us fourth graders, and especially the sixth graders. When I think of tomorrow I think of;

T for tessellations, the patterns of shapes we made
O for Old Town and the week we spent there
M for missions and the projects we designed
O for Olympics and the races we ran
R for reading and the many book reports we did each month
R for recess, our favorite class
O for our older brothers and sisters whose footsteps we follow
W for best wishes to my sister and all of the sixth graders

And lets not forget science fair projects, field trips, brain teasers, blob tag and Talent Show, all great memories for Green School students. That's really all I have to say about Fourth grade, so to all the sixth graders, Good Bye and Good Luck!

SEVEN YEARS

by Jessica Benesch

This is my seventh year at Green School and they have been wonderful. I remember when I first came to Green in Kindergarten. I had Mrs. Edwards. It was scary and hard but I learned to read and write and I liked that very much.

For first grade I had Mrs. Codiga, she was very nice and I really liked her room. I remember Zero-the-Hero, calendar time, reading on the rug, the egg drop contest and bubble gum day. But the best part of first grade was having two teachers instead of just one. They were both the Best!

Second grade was spent with Mrs. Rapp. I remember getting ready for Jr. Olympics and learning all about Nigeria. Mrs. Rapp spent most of the year trying to get me organized. It didn't always work, but we sure had a lot of fun trying.

Mrs. Barnett had me in third grade. I always enjoyed having her read to us. She made the stories exciting.

And then there was Mrs. Martin! She did organize me! I loved her room. I remember reading in a little corner of her room and feeling like I was at home. We did some neat art projects and a science project that boiled all over the floor - boy did we laugh. That was how the year seemed to go, laughing and learning at the same time.

In fifth grade I had Mr. Koepple. Spinning his wheel of fortune was fun. We spent a lot of time making maps, drawing pictures and learning about the Civil War. He always kept us laughing with his silly jokes.

Then Came Mrs. Klosterman...Boy! What a year! Blooms, Blooms, Blooms and I don't mean flowers! Book reports, orals too. I could go on for hours. Sixth grade camp was great, Peanut Butter, I hate now. Pictures, pictures, pictures galore. Please

Mrs. K, no more. Sixth grade was a grand Finale and I will always remember and thank Mrs. Klosterman, she gave me more than she'll ever know.

green has been like my second home. I will miss all the teachers and friends I have met over the years. I know Jr. High will be a lot of fun, but Green will always be NUMBER ONE!!

THANKS TO EVERYONE!!

THE MEHAN FAMILY VACATIONING IN HAWAII. WHICH ONE OF THESE DAREDEVILS IS SOARING THROUGH THE CLOUDS? FIND OUT IN NEXT MONTHS RFNL.

BIRTHDAY CELEBRATIONS

Tim Riel celebrated his 13th recently, and enjoyed a Sunday buffet lunch at the Homebuffet. Grandpa and Grandma had not yet visited this restaurant, but they took Tim's recommendation, and found it very enjoyable. After lunch we all enjoyed a round of miniature golf at the Family Fun Center. Grandma and Tim then took in a movie. We wish Tim a HAPPY BIRTHDAY!

AUGUST BIRTHDAY CALENDAR

Carol Benesch	August 2	41
Nathan Riel	August 13	14
Christopher Riel	August 13	14
Annie Gillingham	August 13	8
Jason Benesch	August 30	14

MORE TRAVEL NEWS

Grandpa and Grandma were treated to a Las Vegas trip recently by Francie, who went there to give an instructional class on ISO beauty products. We had a chance to see some of the newer attractions, Caesar's Palace and the Pyramid, and also got in some gambling time. The new Caesar's Palace arcade is very impressive, with a curved ceiling painted as a blue sky. There are large fountains and statues along the walkway, and the sides are lined with fancy shops. We enjoyed a Sunday evening dinner, and on Monday morning we visited the downtown area. It's main street, Fremont, is being covered over for about four blocks, to create a totally inclosed mall. We also had a chance to see Francie in action at her class, which we sat in on. She does a great job, both in her lecture and her demonstrations. We can readily see why she has made such a good impression with her company officials.

NEW CAREER MOVE

We learned recently that Richard has accepted a position with Wells Fargo bank, and has started out in their training program. Wells Fargo has started out a program to place small branches inside grocery stores. Arrangements have been made with Von's, Lucky's and Ralph's chains, and eventually most of those stores will have the banking service, complete with ATMs located inside the stores. Other services, such as loans, credit card applications, and the like, will be available. Richard will be running a new facility in a new Von's in the South Bay area. We certainly wish him success in this new position.

Just One Man

*Just one man does something good,
for our world today.
To show people a better place,
for future kids to play.*

*Just one man shows all he's got,
to make our dreams come true.
To make our day a tad bit better,
One man does all he can do.*

*After all that one can do,
imagine how much can be done with two.
Two to four, and four to eight,
to bring back some love and erase some hate.*

*So next time you see
some trash on the ground,
a fight going on,
or litter all around.*

*Help out a bit,
it's the least you can do.
And always remember,
a peaceful world begins with you.*
